Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

Cultural Anthropology 19th Edition by Kottak CH01

ANSWERS ARE LOCATED IN THE SECOND PART OF THIS DOCUMENT

TRUE/FALSE - Write 'T' if the statement is true and 'F' if the statement is false.

1) Anthropology is a uniquely holistic and comparative science.

1) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

2) *Holism* refers to traditions and customs transmitted through learning.

2) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

3) *Food production* refers to the cultivation of plants and domestication of animals.

3) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

4) In the discussion of the four types of high-altitude adaptation, "technology" (a form of adaptation) was considered a "biological" type of adaptation.

4) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

5) The biocultural view studies only the biological sides of humanity.

5) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

6) Paleoecology looks at the ecosystems of the past.

6) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : The subdisciplines of anthropology

7) Anthropology is comprised of four subfields.

7) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : General anthropology

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

8) Ethnography is a key part of biological anthropology.

8) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : General anthropology

9) The practice of "garbology" has been used in the subfield of anthropological archaeology.

9) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : The subdisciplines of anthropology

10) A biological anthropologist might study the field known as primatology.

10) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : The subdisciplines of anthropology

11) Cultural resource management would *not* study the impact of pending construction and its potential effects on an archaeological site.

11) _____

◎ true
◎ false

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Identify the work of applied anthropologists.
Topic : Applied anthropology

12) The interests and methods of anthropology and sociology are now converging.

12) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

13) In the chapter, anthropology is not considered a humanistic science.

13) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

14) A suggested but as yet unverified explanation is called a hypothesis.

14) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Describe the scientific method and its application in anthropological research.
Topic : The scientific method

15) Anthropologists study only non-Western cultures.

15) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

16) Humans can adapt to their surroundings through both biological and cultural means.
16) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

17) Culture is not itself biological but rests on certain features of human biology.
17) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

18) Participation and achievement in sports are intrinsically motivated and are not influenced by cultural standards of attractiveness and propriety.
18) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

19) Anthropologists agree that a comparative, cross-cultural approach is unnecessary as long as researchers are diligent in their work.

19) _____

- ◎ true
- ◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : General anthropology

20) Ethnography involves the collection of data that is used to create an account of a particular community, society, or culture.

20) _____

- ◎ true
- ◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : The subdisciplines of anthropology

21) Ethnomusicology is one of the four main subfields of anthropology.

21) _____

- ◎ true
- ◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

22) Archaeologists study only prehistoric communities.

22) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : The subdisciplines of anthropology

23) Biological anthropologists study only human bones.

23) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : The subdisciplines of anthropology

24) As an academic discipline, anthropology falls under both the social sciences and the humanities.

24) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

25) The differences between sociology and cultural anthropology are becoming increasingly distinct.

25) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

26) Psychologists tend to study only people living in the non-Western world, so anthropology has very little to offer to this field.

26) _____

- ◎ true
- ◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

27) Applied anthropology encompasses any use of the knowledge and/or techniques of its four subfields to identify, assess, and solve theoretical problems.

27) _____

- ◎ true
- ◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Identify the work of applied anthropologists.
Topic : Applied anthropology

28) Theories must be proved correct before they can be accepted.

28) _____

- ◎ true
- ◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Describe the scientific method and its application in anthropological research.
Topic : The scientific method

29) In the social sciences, explanations are usually probable rather than absolute.

29) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Describe the scientific method and its application in anthropological research.
Topic : The scientific method

30) According to this chapter's "Focus on Globalization," American baseball appears to be more ethnically diverse than American football or basketball.

30) _____

◎ true
◎ false

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

MULTIPLE CHOICE - Choose the one alternative that best completes the statement or answers the question.

31) Holism refers to

31) _____

A) the comparative study of cultures.
B) an approach in anthropology that parallels participant observation.
C) a focus on the small details of culture.
D) the study of the whole of the human condition.
E) an adaptive change that occurred in early humans.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

32) Cultures are described as

32) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) biological influences on human behavior.
B) traditions and customs that are transmitted through learning and that form and guide the beliefs and behavior of the people exposed to them.
C) traditions of an economic nature that impact the spending habits of people.
D) notions of sophistication that determine one's social status.
E) influences of parenting and custom that impact humans.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

33) Anthropology

33) _____

A) is the study of human populations.
B) is the study of North American cultures.
C) is the study of humans around the world and through time.
D) focuses on the biological aspects of humans, with little focus on cultural issues.
E) is a subfield of sociology.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

34) An example of a cultural adaptation to high altitude would be

34) _____

A) an increased heart rate and hyperventilation.
B) a more efficient respiratory system to extract oxygen from "thin air."
C) the larger "barrel chests" of native highlanders.
D) pressurized airplane cabins with oxygen masks.
E) neural feedback systems within human arms.

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

35) Adaptation

35) _____

A) is a form of instinct.
B) cannot be passed along to offspring.
C) makes some organisms better than others.
D) refers to the processes by which organisms cope with environmental forces and stresses.
E) is a biological phenomenon with few cultural implications.

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

36) Increased heart rate and hyperventilation, as discussed in the case study of adaptation to high altitudes, is which type of adaptation?

36) _____

A) cultural adaptation
B) technology
C) genetic adaptation
D) long-term physiological adaptation
E) short-term physiological adaptation

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

37) When did food production originate?

37) _____

A) 700–500 years ago
B) 1,500–1,000 years ago
C) 5,000–3,000 years ago
D) 12,000–10,000 years ago
E) 120,000–100,000 years ago

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

38) Which of the following statements takes a biocultural perspective?

38) _____

A) A certain culture shuns athletics because a flabby body is considered attractive.
B) In the field, anthropologists try to blend in with the culture they are studying.
C) Some archaeologists study the interrelations among living things in an environment.
D) Traditionally, ethnographers worked with small and nonliterate populations.
E) Many cultural anthropologists prefer to analyze and interpret aspects of culture, rather than trying to explain them scientifically.

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

39) *General anthropology* refers to

39) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) anthropology as a whole, or "four-field anthropology."
B) anthropology as a whole, or "three-field anthropology."
C) anthropology as a whole, or "two-field anthropology."
D) the study of everyday life in natural settings.
E) the study of primates.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : List the four subfields of anthropology and distinguish between ethnography and
Topic : General anthropology

40) The four fields of anthropology include

40) _____

A) ethnography, primatology, linguistics, and kinship.
B) cultural, archaeological, biological, and linguistic anthropology.
C) archaeology, cultural anthropology, gender roles, and linguistics.
D) cultural anthropology, sociology, psychology, and economics.
E) kinship, economics, political organization, and religion.

Question Details

Learning Objective : Identify the work of applied anthropologists.
Topic : Applied anthropology

52) Cultural resource management

52) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) involves only preserving sites.
B) in some cases allows for the destruction of sites if they are not significant.
C) is concerned with the preservation of languages before they go extinct.
D) is a subarea of cultural anthropology.
E) is a subarea of biological anthropology.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Identify the work of applied anthropologists.
Topic : Applied anthropology

53) The name of the branch of anthropology that includes activities such as cultural resource management, public educational programs, and historic preservation is

53) _____

A) business archaeology.
B) public archaeology.
C) museum archaeology.
D) practicing fieldwork.
E) home archaeology.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Identify the work of applied anthropologists.
Topic : Applied anthropology

54) A field of study that seeks reliable explanations, with reference to the material and physical world, is called

54) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) philosophy.
B) psychology.
C) science.
D) religion.
E) scientology.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

55) As a field of study that is devoted to discovering, describing, understanding, appreciating, and explaining similarities and differences in time and space among humans and our ancestors, anthropology can be considered

55) _____

A) less scientific.
B) more scientific.
C) not at all scientific.
D) a "humanistic science."
E) to focus more on personal and political biases.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

56) As opposed to sociology, cultural anthropologists traditionally

56) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) focused more on the study of popular culture.
B) relied more on biological analyses of societies.
C) tended to focus less on the use of statistical methods and have studied small and nonliterate societies.
D) offered more truths and profound understandings of society.
E) focused, almost exclusively, on the study of life in corporate settings.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

57) Cultural anthropology, as compared to psychology,

57) _____

A) conducts research only in home societies.
B) relies on cross-cultural comparisons of psychological patterns to make statements about human psychology.
C) observes the psychological patterns in home societies and applies them universally.
D) has a more positive professional image.
E) has many more undergraduate majors in the discipline.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

58) _____ studies cross-cultural similarities and differences in psychological traits and conditions.

58) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) Ethnography
B) Sociolinguistics
C) Psychological anthropology
D) Physical anthropology
E) Applied anthropology

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Summarize why anthropology is considered a social science.
Topic : Anthropology and other academic fields

59) Culturally specific syndromes are

59) _____

A) not something that anthropologists study.
B) universals of the human experience.
C) patterns of behavior that over time create disease.
D) a method of studying group interaction.
E) patterns of unusual behavior confined to a single culture or a group of related cultures.

Question Details

Topic : The scientific method

65) What is the first step in the scientific method?

65) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) Contribute to larger theory.
B) Get data to test your hypothesis.
C) Draw a conclusion.
D) Have a research question.
E) Analyze your data.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Describe the scientific method and its application in anthropological research.
Topic : The scientific method

66) As it relates to social science, "laws"

66) _____

A) tend to be imperfect generalizations.
B) apply in all instances of an association.
C) do not have exceptions.
D) are useful only if they apply 100 percent of the time.
E) make things less predictable.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Describe the scientific method and its application in anthropological research.
Topic : The scientific method

67) A holistic and comparative perspective

67) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) makes general anthropology superior to sociocultural anthropology.
B) refers only to the cultural aspects of human diversity that anthropologists study.
C) makes anthropology an interesting field of study, but too broad of one to apply to real problems people face today.
D) most characterizes anthropology when compared to other disciplines that study humans.
E) is the hallmark of all social sciences, not just anthropology.

Question Details
Accessibility : Keyboard Navigation
Learning Objective : Explain what is meant by the statement that anthropology is the holistic and com
Topic : Human diversity

68) As humans organize their lives and adapt to different environments, our abilities to learn, think symbolically, use language, and employ tools and other products

68) _____

A) rest on certain features of human biology that make culture itself a biological phenomenon.
B) have made some human groups more cultured than others.
C) prove that only fully developed adults have the capacity for culture; children lack the capacity for culture until they mature.
D) rest on certain features of human biology that make culture, which is not itself biological, possible.
E) are shared with other animals capable of organized group life—such as baboons, wolves, and even ants.

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

69) Which of the following statements about culture is FALSE?

69) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) Culture is a key aspect of human adaptability and success.
B) Culture is passed on genetically to future generations.
C) Cultural forces consistently mold and shape human biology and behavior.
D) Culture guides the beliefs and behavior of the people exposed to it.
E) Culture is passed on from generation to generation.

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

70) What is the process by which children learn a particular cultural tradition?

70) _____

A) acculturation
B) ethnology
C) enculturation
D) ethnography
E) biological adaptation

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

71) This chapter's description of how humans cope with low oxygen pressure in high altitudes illustrates

71) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) human capacities for cultural and biological adaptation, the latter involving both genetic and physiological adaptations.
B) how biological adaptations are effective only when they are genetic.
C) how human plasticity has decreased ever since we embraced a sedentary lifestyle some 10,000 years ago.
D) how in matters of life or death, biology is ultimately more important than culture.
E) the need for anthropologists to pay more attention to human adaptation in extreme environments.

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

72) The presence of more efficient respiratory systems to extract oxygen from the air among human populations living at high altitudes is an example of

72) _____

A) short-term physiological adaptation.
B) cultural adaptation.
C) symbolic adaptation.
D) genetic adaptation.
E) long-term physiological adaptation.

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

73) In order to cope with the range of environments humans have occupied in time and space, which of the following have humans become increasingly dependent on?

73) _____

Access Complete Test Bank for Anthropology Appreciating Human Diversity 19th Kottak

A) social and cultural means of adaptation
B) biological means of adaptation, mostly thanks to advanced medical research
C) a holistic and comparative approach to problem solving
D) social institutions, such as the state, that coordinate collective action
E) technological means of adaptation, such as the creation of virtual worlds that allow us to escape from day-to-day reality

Question Details
Accessibility : Keyboard Navigation
Topic : Human diversity
Learning Objective : Explain the significance of the four primary types of human adaptation.

74) Today's global economy and communications link all contemporary people, directly or indirectly, in the modern world system. People must now cope with forces generated by progressively larger systems—the region, the nation, and the world. Why does the study of how local people adapt to global forces pose challenges to anthropologists according to Marcus and Fischer?

74) _____

A) Truly isolated indigenous communities, anthropology's traditional and ongoing study focus, are becoming harder to find.
B) The cultures of world peoples need to be constantly rediscovered as these people reinvent them in changing historical circumstances.
C) A more dynamic world system, with greater and faster movements of people across space, speeds up the process of evolution, making the study of genetic adaptations more difficult.
D) Anthropological research tools do not work in this new modern world system, making their contributions less valuable.
E) Since cultures are tied to place, people moving around and connecting across space means the end of culture, and thus the end of anthropology.
