Access Complete Test Bank for Law and Ethics for Health Professions 9th Judson

Law and Ethics for Health Professions 9th Edition by Judson CH01
Answer Key

Test name: CH01

1) C
Laws are rules that require everyone to behave the same way or face formal punishment.

2) A
Different offices may follow different etiquette rules.

3) C
Etiquette changes depending on the organization and situation.

4) B
A code of ethics allows standards to be set to define competency.

5) A
A code of ethics allows standards to be set to define competency.

6) B
Most organizations have a policy manual that provides employees with guidance as to how to act in certain situations.

7) C
A litigious society is one in which patients, relatives, and others are inclined to sue health care practitioners, health care facilities, manufacturers of medical equipment and products, and others when medical outcomes are not acceptable.

8) B
The plaintiff is the person(s) filing the lawsuit. A defendant is the person being sued. Witnesses testify in court, and judges preside over lawsuits.

Access Complete Test Bank for Law and Ethics for Health Professions 9th Judson

9) C
Hippocrates created an oath that is still in use today.

10) A
A defendant is the person being sued and who must defend himself or herself in court. Witnesses testify in court, and judges preside over lawsuits. The plaintiff is the person(s) filing the lawsuit.

11) C
Summary judgment states that one party is entitled to win as a matter of law and no trial is necessary.

12) A
Legal responsibility is also known as legal liability. A person(s) or organization may be found legally responsible for an action.

13) B
Ethics and moral values are sometimes confused. Ethics are a guide to conduct, while moral values are the beliefs formed through the influence of family culture and society.

14) D
Bioethics is the study of how biological research and ethical guidelines are established.

15) B
Etiquette is the basic rules of behavior usually known as good manners.

16) C
Identifying and clarifying the problem is the first step in critical thinking. It is followed by gathering information, evaluating the evidence, considering the alternatives, and implementing the decision.

17) A

Access Complete Test Bank for Law and Ethics for Health Professions 9th Judson

People skills include good communication skills. Critical thinking is a problem-solving skill, and technical skills may include proficiencies in working with equipment.

18) C
Compassion is empathy—identifying and understanding another's situation, feelings, and motives. This occurs when the physician takes the time to listen to the patient and answer questions. Sympathy is when one feels sorry for another. Asking about a patient's family is courtesy, and helping a patient walk is a work-related task.

19) C
The simple definition of courtesy is good manners, as is displayed when the technician introduces herself to the patient.

20) C
All health care personnel are responsible for maintaining a safe workplace. If a patient or another employee were to slip and fall because the student thought it was not his or her job, it demonstrates a lack of common sense.

21) A
Our values are determined by a variety of influences including our family, culture, and society. Sometimes, one of these influences has more weight than others.

22) C
The study of law and ethics will aid the health care professional in practice to avoid legal problems.

23) B
An illegal act is always considered unethical, which *may* be punishable by legal means.

Access Complete Test Bank for Law and Ethics for Health Professions 9th Judson

24) A
Although unethical behavior is wrong, it is not necessarily illegal. For example, some providers believe that it is unethical to perform an abortion; however, it is not illegal.

25) D
Technical skills include those abilities acquired in a course of study, such as computer skills. Tact is a people skill, and common sense and problem solving are critical-thinking skills.

26) B
In case law, previous cases often serve as guidance for the court.

27) A
Although codes of ethics are important and have been around for a long time, they are not legally binding.

28) C
As medical technology has advanced, patients have come to expect favorable outcomes from medical treatment. Rising costs lead to questions concerning access to care, and health care practitioners need to be concerned about how law and ethics may affect the patients they treat.

29) D
Most health care facilities have their own policies concerning etiquette that staff members are expected to follow. These manuals may serve as both a permanent record, and guidelines, for employees.

30) Fraud or intentional deceit.

Dishonest or deceitful practices in depriving, or attempting to deprive, another of his or her rights is considered to be fraud or intentional deceit.

Access Complete Test Bank for Law and Ethics for Health Professions 9th Judson

31) ethics, which is concerned with the concept of right or wrong over and above that which is legal in a given situation.

Standards of behavior, developed as a result of one's concept of right and wrong, is known as ethics, which is concerned with the concept of right or wrong over and above that which is legal in a given situation.

32) a medical ethicist or bioethicist.

A specialist who consults with physicians, researchers, and others to help them make difficult decisions is known as a medical ethicist or bioethicist.

33) protocol, which is a set of rules that everyone must follow within an organization.

Rules of etiquette applicable to one's place of employment are known as protocol, which is a set of rules that everyone must follow within an organization.
