28. Explain how your study habits as a student are related to the performance standards you will have as a health care professional.

ANSWER: Answers will vary. Sample answer: By taking every opportunity to learn, you will increase the level of knowledge you bring to your job as a health care professional. Any information that you do not learn now is information that you will not have later when assisting patients. Students who take shortcuts or do just enough work to get by are likely to bring the same habits to their jobs. Those who work for excellence now are preparing themselves to be excellent health care professionals.
