PURPOSE AND PERSPECTIVE OF THE CHAPTER

This chapter provides a brief overview of the parts of speech. In future chapters students will learn about each part of speech in greater detail. Learning the eight parts of speech helps students develop the working vocabulary necessary to discuss and study the language. They especially need to recognize the parts of speech in the context of sentences. This recognition is important because many words function in more than one role. Being able to do identify the parts of speech in a document will help students punctuate correctly and choose precise words for clear, powerful writing. Using the parts of speech correctly will also help them sound more professional and intelligent on the job. In addition, understanding the roles different parts of speech play in written and oral communication are helpful in learning another language.

CHAPTER OBJECTIVES

The following objectives are addressed in this chapter:

- 1-1 Understand the relevance, value, and importance of business English to you and your career.
- 1-2 Define the eight parts of speech and recognize how they function in sentences.
