Medical Office Procedures 10th Edition by Bayes CH01

Answer Key

Test name: CH01

1) C

Patient medical records are sometimes called charts.

2) D

Electronic communication is the most common and efficient mode of communication for many messages.

3) A

All students in an accredited medical assisting program are required to master three areas of competence.

4) D

The administrative medical assistant needs three types of math skills: addition, subtraction, and percentage calculations.

5) B

Electronic scheduling is a popular feature because of its ease of searching and time-saving convenience.

6) A

Lifting patients' spirits helps build goodwill between the patient and the physician.

7) C

Physician practices are the most common place of employment for the administrative medical assistant.

8) C

An obstetrician provides care during pregnancy and childbirth.

Medical Office Procedures 10th Edition by Bayes CH01

9) A

A pathologist investigates the causes of disease.

10) C

An anesthesiologist maintains pain relief and bodily function stability.

11) D

The outward display of an employee's values and standards is defined as work ethics.

12) B

Physicians rank accuracy as the most important employee trait.

13) C

A thorough administrative medical assistant produces work that is neat, accurate, and complete.

14) A

Flexibility is a key component when working within a medical office environment.

15) B

To take action independently is to show initiative.

16) A

Alertness is considered to be an aspect of self-motivation.

17) B

Tact involves speaking and acting considerately, especially in hard situations.

18) B

The AAMA requires CMAs to be re-certified every five years.

19) C

Medical Office Procedures 10th Edition by Bayes CH01

AHIMA offers three certification exams in coding: CCA, CCS, and CCS-P.

20) A

A certification exam to become a certified medical administrative specialist is offered through the AMT.

21) C

The core values of the IAAP include integrity, respect, transparency, excellence, and collaboration.

22) D

When speaking with terminally ill patients, you should discuss short-term topics.

23) B

The label method is a current preferred sign-in method.

24) D

The doctor is the sole judge of what information is to be given to or withheld from the patient.

25) A

Ethnocentrism is the tendency to believe that one's own race or ethnic group is the most important and that some or all aspects of its culture are superior to those of other groups.

26) C

Nonverbal facial expressions and tone of voice may have contributed to the miscommunication between Hope and the patients.

27) D

Brian was demonstrating efficiency.

28) A

Medical Office Procedures 10th Edition by Bayes CH01

While searching online for a medical coding position, Bailey should use the keyword or phrase "certification" to search the internet.

29) D

Education and home health sales would offer the best choice of a career for Scarlett who would like to work in a medical-related administrative field but is not interested in a medical office setting.

30) B

Tyson demonstrated the personal attribute of true and genuine liking of other individuals in his volunteering for an organization to help people.

31) A

An administrative medical assistant should always be aware of the impression and professional image given by his or her actions and presentation because the physician and practice are represented through the administrative medical assistant.

32) A

Dependability consists of finishing tasks on schedule, without complaining, and offering to assist others.

33) D

Problem-solving means logically and systematically planning steps to accomplish a task.

34) B

Empathy is sensitivity to other people's feelings and situations.

35) B

An ethnocentric person believes that one's own race, ethnic group, and/or culture is superior to all others.

36) A

Medical Office Procedures 10th Edition by Bayes CH01

Thoroughness is a trait that results in complete, neat, and correct tasks.

37) D

AAPC and AHIMA are certifying bodies that provides certification opportunities for medical coders.

38) C

Certification is a recognition given by associations that an individual has met high standards and has demonstrated competency in given knowledge and tasks.

39) B

An accurate person completes tasks with correctness and attention to detail.

40) D

Initiative is a trait characterized by working independently and offering to help others.

41) A

Tact is the ability to speak and act considerately in various situations.

42) C

The AAMA Role Delineation Chart is a good reference source that identifies the skills, duties, and procedures that medical assistants are educated to perform.

43) D

The administrative medical assistant plays an important role in ensuring that the medical office's procedures comply with all government regulations concerning patient's records.

44) C

Medical Office Procedures 10th Edition by Bayes CH01

A basic understanding of a variety of technologies and the ability to use computers with mastery are essential workplace skills.

45) A

The use of e-mail to communicate is as widespread as telephone communication.

46) C

Excellent interpersonal communication skills often come from a genuine desire to work with people.

47) A

Looking directly at the patient and listening with attention are ways to communicate acceptance of the person.

48) C

The five major categories of tasks performed by an administrative medical assistant are: front desk, scheduling, records management, administrative duties, and financial.

49) D

Our nonverbal communication style is important and includes things such as body posture, voice tonality, and facial expressions.

50) A

Items fueling the rapid growth are advances in technology, an aging population, and healthcare reform.

51) D

Traits needed to be a successful medical assistant spring from empathy, a sensitivity to the feelings and situations of other people.

52) D

Medical Office Procedures 10th Edition by Bayes CH01

Insurance companies and government health insurance programs must ensure that claims from healthcare providers are "clean claims" - in other words, the claim forms are correct and complete.

53) A

The quality of good judgment involves the ability to use knowledge, experience, and logic to assess all the aspects of a situation in order to reach a sound decision.

54) D

Honesty is the quality that enables the physician to trust the medical assistant at all times.

55) C

Being on time - punctuality - is important for the administrative medical assistant because of the physician's schedule and the need to complete routine duties before patients arrive.

56) A

Assertiveness is always a positive force. It is unlike aggressiveness, which is a hostile and overbearing attitude.

57) D

AHDI offers the Certified Medical Transcriptionist (CMT) certification exam.

58) D

The administrative medical assistant is usually the first person the patient comes in contact with when making an appointment or going to the doctor's office.

59) B

If you are away from the desk when a patient arrives, acknowledge the patient with a smile and a greeting as soon as you return.

Medical Office Procedures 10th Edition by Bayes CH01

60) D

A physician may choose to establish a less formal tone in the office, but it is still a professional setting.

61) C

Under no circumstances should you make a social engagement with a patient without first checking office policy.

62) B

Try to avoid controversial subjects, such as politics or religion.

63) B

The medical assistant must remain calm and courteous when dealing with angry patients.

64) C

A patient who leaves the office on a positive note may tell others about a good experience with the staff.

65) A

A doctor who gives information about a patient without a patient's permission, except to another doctor, can be prosecuted under the law because they did not maintain confidentiality.

66) A

Leaving information available to be viewed by others is a violation of HIPAA.

67) C

A very simple solution is to turn the chart around, so that the name and any other medical information are not exposed.

68) A

Medical Office Procedures 10th Edition by Bayes CH01

When exiting a patient examination room, take the mobile device with you.

69) C

If the patient relies on American Sign Language (ASL), prior to the medical visit, ask the patient if an interpreter will be accompanying them to the visit. If not, make arrangements to have an interpreter present.

70) D

Written communication, when possible, should be free of medical language.

71) A

The doctor has scheduled the first Monday of each month from noon to 2 p.m as the time to meet with sales representatives. Should I enter your name on the calendar for next month?
