ANSWERS TO STOP AND CHECK EXERCISES

What's in the File?

1. A, B, D, E
2. B
3. D
4. A
5. C

Who Are You?

1. Student answers will vary. One possible way to prove both identity and employment is a current U.S. passport. Alternatively, a current state-issued driver's license and a Social Security card will work for the purposes of the I-9.
2. Student answers will vary. When evaluating the earnings of more than one job, the breakdown of includable amount by pay period is often overlooked.
3. Student answers will vary. Examples of statutory employees include: A driver who distributes beverages (other than milk) or meat, vegetable, fruit, or bakery products or who picks up and delivers laundry or dry cleaning, if the driver is a single company's agent or is paid on commission. A full-time life insurance sales agent whose principal business activity is selling life insurance or annuity contracts, or both, primarily for one life insurance company. An individual who works at home on materials or goods that a company supplies and that must be returned to that company or a designated agent in accordance with furnished specifications for the work to be done. A full-time traveling or city salesperson who works on a single company's behalf and turns in orders from wholesalers, retailers, contractors, or operators of hotels, restaurants, or other similar establishments. The goods sold must be merchandise for resale or supplies for use in the buyer's business operation. The work performed for that single company must be the salesperson's principal business activity.

Exempt vs. Nonexempt

1. Exempt workers are exempt from the overtime provisions of FLSA. Exempt workers tend to be employees in a company's managerial or other leadership functions, in which they may need to work more than 40 hours per week to complete their tasks. Exempt workers usually receive a fixed salary per period that is not based on the number of hours worked.

Nonexempt workers tend to be compensated on an hourly basis and often do not have managerial or leadership responsibilities. It should be noted that some nonexempt workers do have managerial or leadership responsibilities and may receive a fixed salary; however, these employees are covered by the overtime provisions of FLSA.

2. C (40 hours)
3. The leased employee is a common-law employee of the firm, whereas the temporary employee is an employee of the temporary agency.

Worker Facts

1. Hourly workers and nonexempt employees are protected by the FLSA.
2. Exempt workers receive a fixed amount of money and generally direct the actions of other employees; nonexempt workers are eligible for overtime and generally have their work directed by a manager.
3. Commission workers are typically tied to sales completed by the individual; piece-rate pay is determined by the number of pieces the employee completes during a shift or period.
4. Student answers may vary but should include: Minimum hourly rate is set by the U.S. Federal government. Minimum wage rates can and do vary per state, and different parts of the same state may have different minimum wages. The minimum wage may differ from a “living wage,” which is an amount needed to meet basic subsistence needs. A calculating tool was provided in the chapter for discussion on various location living wages.

Who Does Which Job?

Student answers will vary. The answer should reflect a clear separation of duties, cross-training, rotation of tasks, and security protocols.

$8.75 + 7.75 + 8.50 + 8.00 + 8.25 = 41.25$ hours for 1.25 hours of overtime over 40 per week
 $.75 + .50 + .25 = 1.5$ hours over 8 per day for a total of 2.75 hours overtime in the period

P2-1B. Tasha Webb is an independent contractor for Antimbu Exports, where you are the payroll accountant. She feels that she should receive employee benefits because of the number of hours that she dedicates to the company. What guidance can you offer Tasha?

© McGraw Hill LLC. All rights reserved. No reproduction or distribution without the prior written consent of McGraw Hill LLC.

- a. Independent contractors are most frequently treated as a vendor and would not be included in employee benefits. There are specific tests that determine the relationship between employer and employee; however, the number of hours committed is not one of the defining traits.

P2-2B. Roland Wexler was terminated for cause from Santel Auto Parts in North Carolina on July 20, 2022. As of the date of his termination, he had worked 22 hours of regular time. Employees at Santel Auto Parts are paid semimonthly on the 15th and last day of the month. Roland would like to know when he will be paid for the accrued hours. What will you tell him?

- a. North Carolina states that terminated employees should receive their paycheck on the next regularly scheduled payday, so it will be the end of the month.

P2-3B. Ahanu Coahoma, a member of the Algonquin Indian Nation, is a new employee at Pactco Game Design. During the process of completing his I-9, he claims that the only way to prove his identity is the Algonquin Indian National official birth certificate. Is this document sufficient to prove employment authorization for the purposes of the I-9? Why or why not?

- a. Yes, these are acceptable since this would fulfill the requirements of items from type B and type C of the acceptable documents.

per week. Nonexempt employees are covered by FLSA wage and hour provisions and do not meet the exceptions requirements.

P2-6B. Adriana Alvarez is a new payroll clerk for Remm Plumbing. She is curious about the purpose of the different steps in the payroll review process and asks you, her supervisor, for guidance. What would you tell her?

- a. The payroll review process is designed to verify the information so that employees are paid correctly, and the data is correct. Starting with the employee completing their timecard, the information is then verified by the manager. After the manager has agreed that the employee has accurately portrayed the hours worked, the payroll clerk will prepare the information for the manager to review and approve. Once the information has been approved, the payroll checks can be issued to the employees.

- a. Moving between biweekly (26 pay periods per year with the possibility of 27) to a semimonthly system (24 pay periods per year) would cause individual to see increases per pay period since there are more days being covered on the pay period under semimonthly than on biweekly. This could also result in higher taxes per pay period.

P2-11B. Complete the W-4 for employment starting 5/23/2022 at Martel Semiconductors, located at 2445 Manchester Road, Lakehurst, NJ 08733, EIN of 26-4684136.

CRITICAL THINKING

- 2-1. When Omnimia Graphics was looking to implement a payroll accounting system, the manufacturing firm had several options. With only 40 employees, the manual preparation of payroll through spreadsheets and handwritten timecards was a comfortable option for the firm. Another option is to convince the senior management of Omnimia Graphics to implement a software program for payroll processing. How should the company handle maintenance of the current payroll records? What internal control issues should be addressed?
- a. Student responses will vary. Key points that need to be included: confidentiality of records, retention period, separation of duties, verification of payroll.
- 2-2. You have been hired as a consultant for Semiva Productions, a company facing an IRS audit of their accounting records. During your review, you notice anomalies in the payroll system involving overpayments of labor and payments to terminated employees. What would you do?
- a. When the anomalies are discovered, the management of the company should be made aware of the situation. Since the IRS audit is imminent, documenting the date of the find and attempts to rectify the error would be advisable. Depending upon the nature of the anomalies, the company or payroll employees may have made some serious errors.

Chapter 2: Payroll System Procedures

Instructor Notes

This chapter presents procedures for preparation of payroll, treatment and requirement for new hires, employee files, and internal controls procedures. As this chapter progresses, the student will understand the forms required and how to implement the process of placing a new employee into the payroll journals. New hire reporting requirements are discussed along with document destruction and retention periods. The student will gain an understanding of the different forms for new hires, pay period frequencies, and the different pay methods that can be employed by a business.

Some questions to stimulate discussion on this chapter would include:

Critical Thinking Answers

2-1. Key points that need to be included: ease of update for changes in tax laws, tax tables, and payroll regulations; ease of reporting; whether the employee self-service option would be eligible; confidentiality.

2-2. When the abnormalities are discovered, the management of the company should be made aware of the situation. Since the IRS audit is imminent, documenting the date of the find and attempts to rectify the error would be advisable. Depending upon the nature of the anomalies, the company or payroll employees may have made some serious errors.

In the Real World—Guidelines for Discussion

Some questions that students should consider include Ms. Ledbetter's original access to confidential paperwork and the firm's internal controls.

- Should she have been able to gain access to such confidential records?
- What if the records had already been destroyed since the original statute of limitations had been exceeded?
- What are implications for employers' document retention policies in the aftermath of this case?
- Should the employer have followed up on discrimination charges when they were originally raised?
- Once a case of pay discrimination has been investigated, what should the employer do (if anything) about the other employees' pay?
- Should all employees receive the same raise to avoid charges of discrimination?
- Should records be retained longer than the current guidelines to avoid challenges like Ms. Ledbetter's case? If so, how long?

Activities

Assign students to work individually or in small groups to explore the following websites:

Using a search engine find examples of what would be included in "New hire packet" for at least three different companies, preferable in different industries.

Go to www.irs.gov and search for IRS e-file security. List the facts the IRS shows for why e-file is a secure service.

Assign students to work individually or in small groups to explore the following websites:

www.uscis.gov
www.irs.gov/businesses/
www.archives.gov/federal-register/cfr/subject-title-26.html
www.proshred.com
www.ironmountain.com

What did the students find for payroll support?
 What internal controls are mentioned?
 Is there a payroll destruction company in their area?

Other classroom activities:

- Determine what new hire information should be shared between payroll and human resources.
- Should these two departments be used (in larger or midsized companies) to facilitate payroll internal controls and cross-verification?
- Using internet search engines, compare the options for a small business to outsource their payroll requirements.
- Split class into teams, some are managers, payroll accountants, outsourcing agencies, or external regulators. Determine the needs and if those needs are met by the payroll department.
- Check out the living wage calculator at <http://livingwage.mit.edu>.
- Check out the IRS's video about determining the correct amount of withholding allowances for your Form W-4 www.youtube.com/watch?v=6FSOvxxkxM

Continuing Payroll Project

The continuing project starts with the development of timecards and the payroll records for the company. Following this activity, the students should have their payroll files ready for the first actual payroll with annotated information on each employee's key facts.

Step 2: Complete this step if you (1) hold more than one job at a time, or (2) are married filing jointly and your spouse also works. The correct amount of withholding depends on income earned from all of these jobs. Multiple Jobs or Spouse Works Do only one of the following. (a) Use the estimator at www.irs.gov/W4App for most accurate withholding for this step (and Steps 3-4); or (b) Use the Multiple Jobs Worksheet on page 3 and enter the result in Step 4(c) below for roughly accurate withholding; or (c) If there are only two jobs total, you may check this box. Do the same on Form W-4 for the other job. This option is accurate for jobs with similar pay; otherwise, more tax than necessary may be withheld . . . ▶ ☐ TIP: To be accurate, submit a 2022 Form W-4 for all other jobs. If you (or your spouse) have self-employment income, including as an independent contractor, use the estimator. Complete Steps 3-4(b) on Form W-4 for only ONE of these jobs. Leave those steps blank for the other jobs. (Your withholding will be most accurate if you complete Steps 3-4(b) on the Form W-4 for the highest paying job.)				
Step 3: If your total income will be \$200,000 or less (\$400,000 or less if married filing jointly): Claim Dependents Multiply the number of qualifying children under age 17 by \$2,000 ▶ \$ Multiply the number of other dependents by \$500 . . . ▶ \$ Add the amounts above and enter the total here 3 \$				
Step 4 (optional): Other Adjustments (a) Other income (not from jobs). If you want tax withheld for other income you expect this year that won't have withholding, enter the amount of other income here. This may include interest, dividends, and retirement income 4(a) \$ (b) Deductions. If you expect to claim deductions other than the standard deduction and want to reduce your withholding, use the Deductions Worksheet on page 3 and enter the result here 4(b) \$ (c) Extra withholding. Enter any additional tax you want withheld each pay period . . . 4(c) \$

Appendix A

There are two versions of a full quarter, from start to finish, payroll project located within Appendix A. Starting in chapter 2, instructors may assign coinciding portions from the appendix to supplement the materials in the textbook. This project may be assigned using a three-month data set that starts on October 1 and runs through the year-end tax reporting. The other option is to assign the short version, which contains only the December transactions.
